- Now, click on **EMAIL ACCOUNTS**, under the **MAIL** area. A new window will open.

In the new window, you will be able to create your new email account.

Email:		@ koba	avashi.ca	*	1	
Password:			-			
Password (again):]		2		
Strength (why?):	Very Weak (0/100)	Passw	ord Generato	or		
Mailbox Ouota:	💿 250 мв					

- First, write the nickname you would like to use for the new email account in the Email textbox (Step 1)
- Now, write the password you will use to log in to your new email account in the Password textbox. Remember to choose a strong, long and complex password. You can always use the Password Generator to choose a secure password. You will have to enter it twice. (Step 2)
- Next, choose in megabytes the mailbox quota you want for the account in the Mailbox Quota textbox. If you want to have unlimited space for the new email account, click on the Unlimited radio button. (Step 3)
- Finally, click on the Create Account button and your new email address will be created. (Step 4)
